SUMMARY

I'm a Data Analyst with a B.Tech. in Pure and Applied Mathematics, passionate about using data to solve real business problems. I've gained hands-on experience working with logistics and financial data, using tools like Excel, Power BI, and SQL to build dashboards and uncover insights that drive better decisions. I also use Python for cleaning and analyzing data, and I enjoy turning complex numbers into simple stories that people can understand.

EXPERIENCE

Haulage Operations Analyst

Dipson Plastics and Recycling Plant

June 2023 - Present, Ogun state

- Managed and analyzed datasets of 200+ monthly transport records to identify cost inefficiencies, leading to an 11.2% reduction in total haulage expenses.
- Developed Power BI dashboards and Excel reports to track key logistics KPIs, and financial performance metrics, improving operational reporting and data accuracy
- Optimized delivery schedules and route planning using data-driven decision-making.
- Analyzed shipment data to verify transactions, ensuring compliance and accuracy.
- Assessed vehicle maintenance data to prioritize repairs, reducing downtime and operational disruptions.

Logistics Data Analyst

IBRO Global Transport Company

July 2017 - December 2018, Ikeja

- Analysed transportation dispatch reports, optimizing delivery timelines and reducing costs by 20%.
- Utilized data tracking systems to monitor deliveries and identify trends for operational improvements.
- Implemented inventory management strategies, reducing inventory costs and enhancing efficiency.
- Coordinated returns to vendors, ensuring smooth logistics processes between departments and suppliers.

Database Administrative Assistant

Nisalee Industries Limited

January 2022 - May 2022, Ibadan

- Collected and analyzed administrative data to improve workflow efficiency.
- Automated data entry processes, reducing manual errors and enhancing productivity.
- Assisted in preparing financial and performance reports for management review.
- Maintained and organized databases to ensure accurate record-keeping and quick access to critical information.
- Provided technical and operational support to improve departmental efficiency.

EDUCATION

Bachelor of Technology in Pure and Applied Mathematics

Ladoke Akintola University of Technology • Ogbomoso • 2022

SKILLS

Technical Skills: Proficient in Power BI, Excel, SQL, and Python for data collection, transformation, and analysis. Experienced in building interactive dashboards, automating workflows, and writing efficient SQL queries for large datasets.

Analytical Skills: Experienced in data cleaning, data visualization, and KPI tracking to generate clear business insights. Strong ability to connect analytics with operational and business outcomes.

Soft Skills: Analytical thinking, problem-solving, communication, collaboration, and high attention to detail—ensuring data accuracy and effective teamwork in fast-paced environments.

CERTIFICATIONS

Mastering Microsoft Power BI

MINDCLUSTER

- Expertise in PowerBI which enhances data analytics, visualization, and decision support in diverse professional settings

Python for Data Science, AI and Development

IBM & COUSERA

- Proficiency in Python for Data Science and AI

Data Visualization: Empowering Business with Effective Insights

FORAGE

- Derived insights from data, aiding in strategic decision-making processes

Business Analysis Basics

SIMPLILEARN | SKILLUP

- Gained practical understanding of business analysis processes, requirements gathering, and stakeholder management for data-driven projects.

Generative AI

WOOTLAB | MICROSOFT

- Certified in Generative AI, demonstrating proficiency in AI technologies and their applications, including content creation, model development, and AI-driven solutions.
